

Astrox (Class 8th)

Mental Ability	Alphabet and Number Test, Analogies, Calendar, Time and Clock, Analogy, Embedded Figure, Mathematical Operations, Ranking and Arrangements, Series, Water and Mirror Images, Coding-Decoding, Blood Relations, Classification, Direction Sense, Figure Partition and Dot Situation, Missing Character, Venn Diagrams & Word Problems.
Mathematics	Rational Numbers, Squares & Square Roots, Cubes & Cube Roots, Linear Equations (One Variable), Exponents & Powers, Factorisation, Understanding Quadrilaterals, Introduction to Graphs, Comparing Quantities, Direct & Inverse Proportions, Area and Volume of 2D/3D shapes (Cubes, Cylinders), Data Handling.
Physics	Forces and Pressure: Core definition of forces, friction, pressure concepts, and atmospheric/liquid pressure. Light: Laws of reflection, plane and spherical mirrors (basic concepts), and introduction to refraction. Sound: Production and propagation of sound, characteristics of sound waves (amplitude, frequency, pitch, loudness), and structure of the human ear. Electricity: Heating and magnetic effects of electric current, simple circuits, and basic circuit components. Earth Science: Wind, storms, and cyclones — causes, effects, and safety measures.
Chemistry	Matter and Its States: Elements, compounds, mixtures, separation techniques, and the behavior of solutions. Materials — Metals and Non-Metals: Physical and chemical properties and basic uses. Coal and Petroleum: Natural resources, formation, and uses. Combustion and Flame: Types of combustion, fuels, and structure of a flame. Synthetic Fibres and Plastics: Types, properties, and environmental impact.
